

LINE

Bronze

Great Lakes Packaging Corp.
Cutty Sark® Scots Whisky Carton

Prepress & Vendor: Electronic, Printron Engravers
Plates & Vendor: Analog photopolymer, DuPont Imaging Technologies
Thickness: 0.125"
Mounting & Vendor: Video
Press Type & Mfgr.: Inline, Cuir MK II
Speed: 4,500 sph
Ink Type: Water
Inking System: Doctor-bladed
Sequence: Screen black, special yellow, solid black, varnish
Comments: Challenge was to keep the density of the black while keeping the screens open and the detail open in the logo. The customer was particular about the look matching the bottles as well as the gift box that was packaged inside.

SCREEN

Silver

Charta Packaging Ltd.
Sanford™ Pacific Oysters Half-Shell Oysters,
10-dz. Box

Prepress & Vendor: Manual & in-house
Plates & Vendor: Analog photopolymer, other
Mounting & Vendor: Manual
Press Type & Mfgr.: Inline, Marquip Ward SV 2000
Speed: 3,500 sph
Ink Type: Water
Inking System: Doctor-bladed
Sequence: Metallic blue, black
Comments: This was a new ink development, colored metallic ink. The pack was to replace a litho laminate version to reduce cost, but high graphics were still a requirement.

Gold

Charta Packaging Ltd.
Sanford™ Snapper Whole, Fresh Frozen Box

Prepress & Vendor: Manual & in-house
Plates & Vendor: Analog photopolymer, other
Mounting & Vendor: Manual
Press Type & Mfgr.: Inline
Speed: 3,500 sph
Ink Type: Water
Inking System: Doctor-bladed
Sequence: Red, blue
Comments: To reduce cost for the customer, the pads were changed from a lithographic print to flexo, but still required a high graphic of the fish.
